Information

Since the formation of the company in 2006, 3i has worked to exceed client expectations and transform vision into award-winning projects. 3i offers the broad expertise and financial stability of a mid-size General Contractor and Construction Manager while combining the personalized service and attention of a smaller firm.

The structure of our company is designed to help us communicate closely with our clients at every project phase, and enables us to act rapidly and decisively when needed. We provide the following to a wide range of industries: Design/Build; Preconstruction; Tenant Finish Out; Civil; Construction Management; Job Order Contracting Services; and Program Management Services.

We have clients in many industries. Some select examples include DART; Parkland Hospital & Health Systems; John Peter Smith Hospital; Dallas ISD; Houston ISD; Garland ISD; Fort Worth ISD; DCCCD; TCCCD; UTD; DFW international Airport and many more. Through the organization formed by the owner of 3i, the 3i Team is committed to serving communities throughout the State of Texas... Imagine Peace!

Pease is achievable in our communities and in our world. It is not an illusive dream or an unachievable goal.

Pease requires radical transformation in the hearts and the minds of people. It necessitates that people see those who are different from them as members of the same human family, worthy of respect and love.

& YOKO ONO

Proponents of Peace!

The transformation to peace demands that each of us leave the spaces that we know and embrace a larger vision, that we abandon small-mindedness and bitterness.

Pease is not an impossible task. Its arrival will be welcomed by all people who will come to know and experience the joy and purpose that it will bring." |AR

Seeking Corporate *Excellence!*

At the end of a grueling twelve-hour business day, Marriel Williams, the owner of Elle Distribution, turns to her family and to prayer to sustain her.

Ms. Williams, a Texas Tech graduate, is building a company that she believes will become one of the major suppliers of construction equipment to companies throughout Texas and the United States.

“I am motivated by the pursuit of excellence,” said Ms. Williams who earned an MBA after completing her undergraduate studies at Tech where she became a member of the Chi Omega Sorority.

“I am committed to the success of my clients, and to my company’s growth,” said Ms. Williams. “My objective is to create relationships that are financially profitable for other business owners, and for Elle Distribution,” she added.

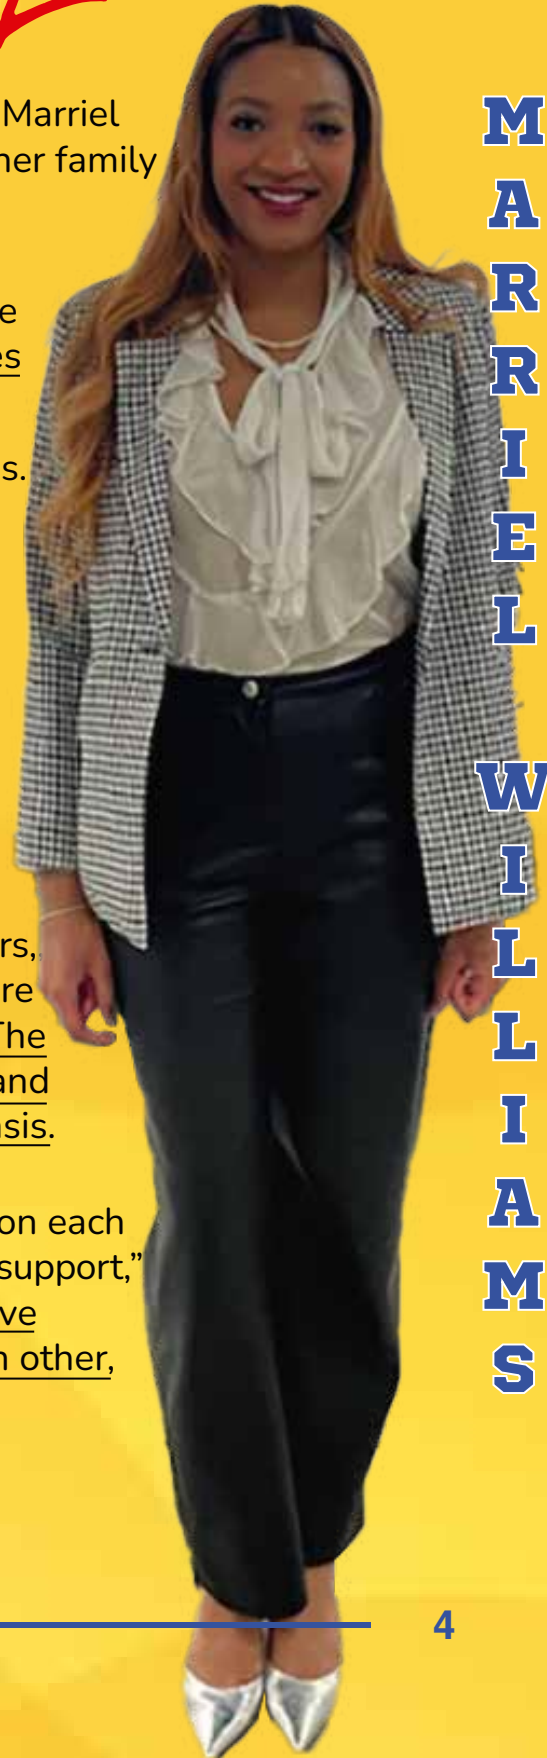

Marriel, left, Holland and Amari are among the country's leading young business leaders.

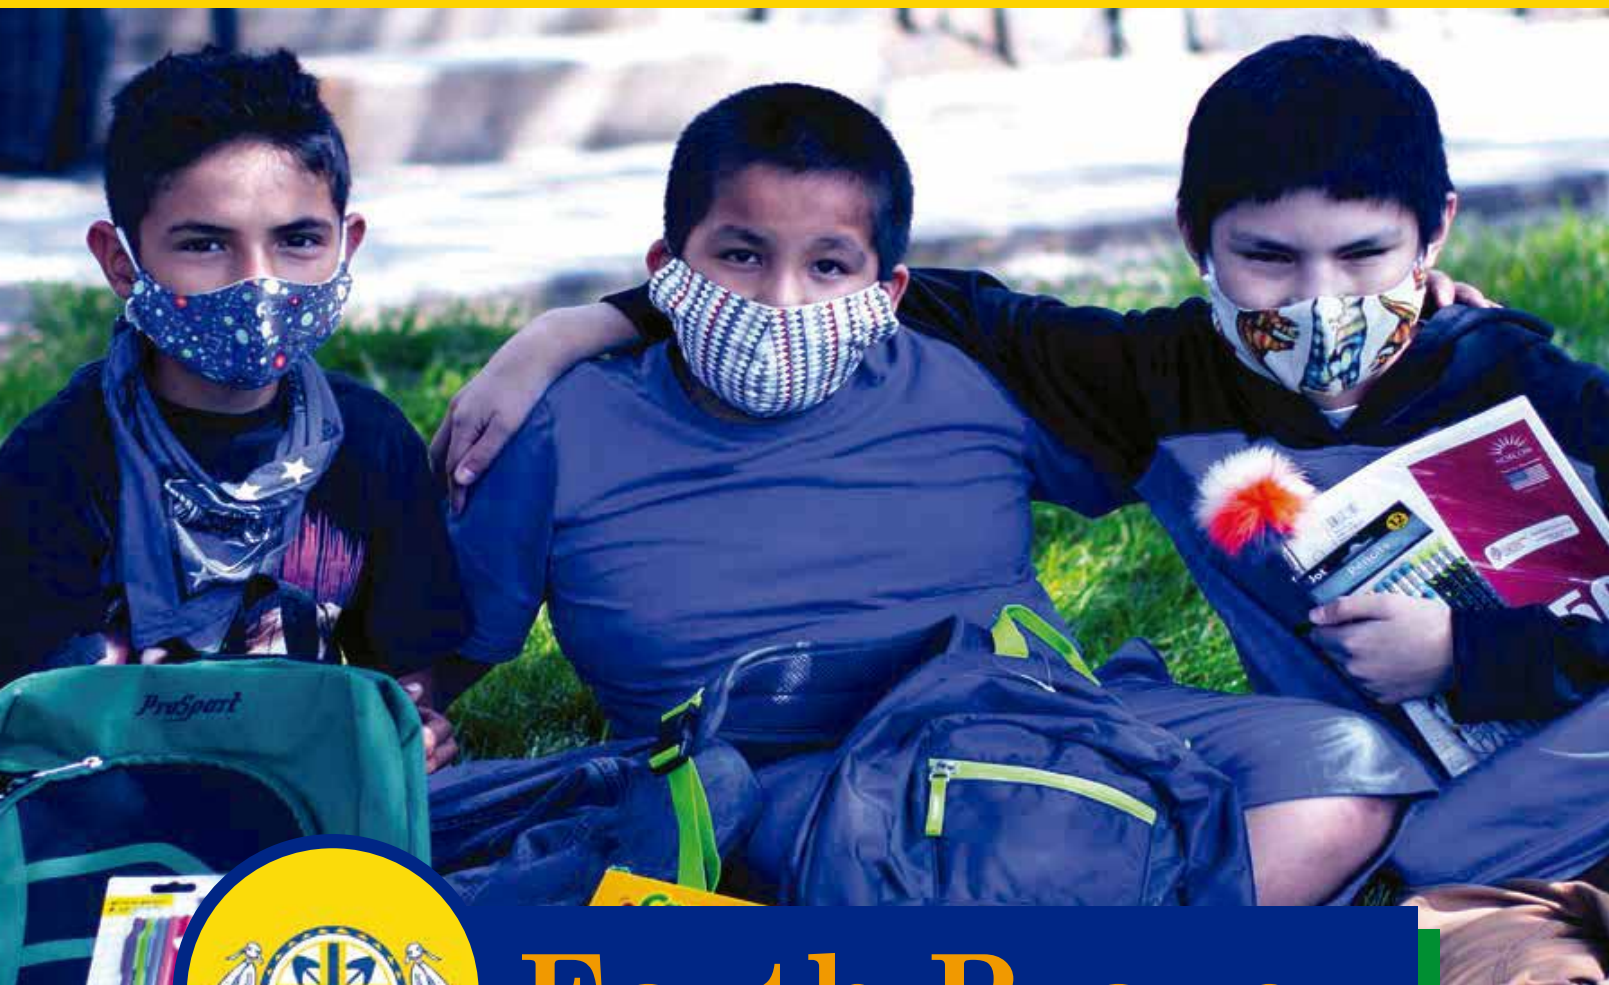

Ms. Williams’s two sisters, Holland and Amari, are graduates of Texas Tech. The three remain best friends and communicate on a daily basis.

“The three of us rely on each other for emotional support,” Ms. Williams said. “We have always been there for each other, and always will.”|AR

Earth Prayer

“Grandfather! Great Spirit, once more behold me on earth and learn to hear my feeble voice. You lived first, and you are older than all need, older than all prayer. All things belong to you – the two-legged, the four legged, the wings of the air and all green things that live!”

MORE THAN A SPORTS HERO ©

SHE IS SIMPLY AMAZING!

The U.S women's figure skating champion, Amber Glenn, is superlative on the ice, and in the world around her.

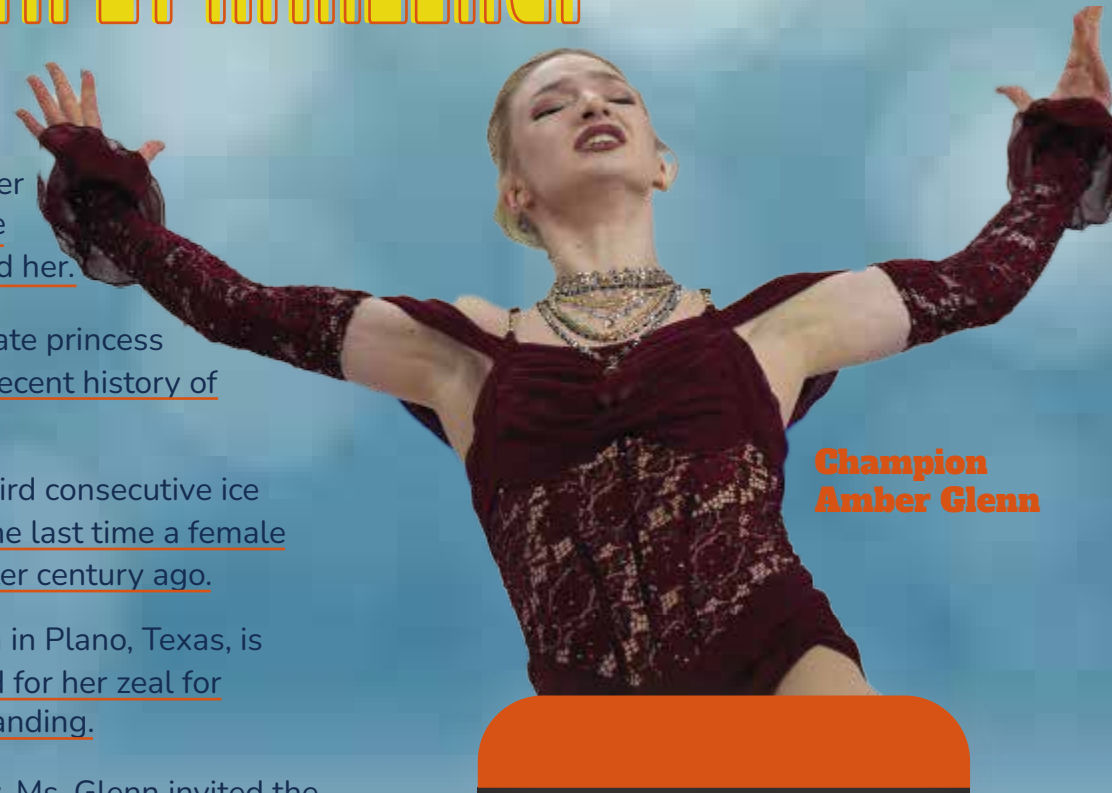

Her achievements as a skate princess are unparalleled in the recent history of her sport.

In January she won her third consecutive ice skating championship. The last time a female skater did that was a quarter century ago.

Ms. Glenn, who was born in Plano, Texas, is admired for skating and for her zeal for social change and understanding.

Aproponent of inclusivity, Ms. Glenn invited the second and third place winners at the recent U.S. championship to celebrate their individual accomplishments together.

Ms. Glenn, second left, has helped to create a "family of skaters" in which competitors befriend and encourage each other.

The three women embraced, laughed and cheered for each other. All three will represent the U.S. at the 2026 Winter Olympics in Italy.

Considered by experts to be one of the finest skaters in American history, Ms. Glenn is an advocate for the LGBTQ community and for global human rights. |AR

An Immigrant's Story

● MEET DR. SHEEZA MOHSIN

Helping With Her Heart

In the mornings when she wakes in her Southlake Texas home, Dr. Sheeza Mohsin thinks of healing!

In large measure her life is devoted to bringing people together, to ending distances between human beings and to helping disjointed families, individuals and communities find personal peace and wholeness.

“Much of my life is devoted to people and to the wellness of our larger society,” said Dr. Mohsin, a native of Pakistan who earned a

Doctorate degree at Texas Women's University, a Masters degree at Florida International University and a Bachelors at New York University's Stern School of Business.

In addition to her work with families and individuals, Dr. Mohsin works with corporate executives who want to solidify relationships among employees, end workplace exhaustion and improve corporate environments.

I find great joy in assisting married couples who are experiencing difficulties to repair their relationships,” she said.

A builder of bridges between different types of people, Dr. Mohsin, second right, said that family is at the foundation of her life.

“At the foundation of my life is my love for my children, Anooshey and Faiz, and positively touching the hearts, minds and souls of others,” Dr. Mohsin said.

“That is a crucial part of my role as a professional, and as someone engaged in the betterment of humanity,” she added. |AR

Avoid Highways and Live Longer!

*Nearly
40,000
motorists
are **fatally**
injured each
year in high-
way acci-
dents.*

Nearly 40,000 people are killed in accidents each year on our nation's highways. Four million other motorists suffer serious injuries in non-fatal highway accidents.

Avoid highways and increase your odds of living longer. If you must travel long distances use Google Maps to plan a safer route. Take advantage of service roads!

On many of our highways people are driving at extremely high speeds while using their phones, texting their friends and smoking mind-altering substances.

It is just not worth it! Avoid highways whenever you can, on long trips and when traveling across town! | AR
